D3, E2: Compare APA & MLA Citations in NoodleBib

Directions: Visit both of the following websites and create MLA & APA citations.

Fetal Alcohol Syndrome Disorders (FADSs) http://www.cdc.gov/NCBDDD/fasd/facts.html

Steps:

1. Create MLA Citations
   a. Create a New Project with the name LIBR7 Day3 MLA using MLA Advanced
   b. Create an MLA citation for the two websites above.
   c. Check that your completed citations match the MLA formatting guide.

2. Create APA Citations
   a. Follow the steps above, but for APA to create an APA citation for the same two sites using NoodleBib (or use the “change style” option to change the MLA project to APA).
   b. Check that your completed citations match the APA formatting guide.

3. Print
   a. Export the NoodleBib bibliographies to Word (by selecting Print/Export then Print/Export to Word) for the MLA (Works Cited) and APA (References) bibliographies. You should have a total of 4 citations (2 MLA and 2 APA) to print out.

4. In-Text Citations
   a. Using Noodlebib, write out the in text citation for each source (or you could copy and paste before printing).

5. Compare
   a. Look at both of the the citation styles and circle all of the differences.
